

GPA'S 35th School of Gas Chromatography

*An intensive one week school sponsored by
the Gas Processors Association*

GPA's Analysis and Test Methods Section (formally known as Technical Section B) will manage, direct and conduct the school as in past years.

Dates: August 4 - 8, 2008

Times: 8 a.m. - 5 p.m., Monday through Thursday
8 a.m. - 11:30 a.m. Friday

Location: Keplinger Engineering Hall - University of Tulsa - Tulsa, Oklahoma, USA

About the School:

This school will teach basic gas and gas liquid chromatography with an introduction to extended analysis and portable chromatographs. This is a hands-on school directed toward chromatograph operators, measurement technicians and engineers involved with chromatography. It has three primary purposes:

- To teach GPA chromatography procedures and calculation methods to industry technicians and chemists with hands-on instruction.
- To prove that accurate and reproducible results can be obtained by chromatographic analysis.
- To provide related auxiliary information on fundamental chemistry, gas and liquid sampling, reference standard blends, safety practices related to pressurized cylinders, integrators, economics of extended analysis, portable chromatographs and contaminants in NGLs. In addition, a laboratory demonstration of non-linearity will be included. Various laboratory equipment vendors will perform on-site demonstrations of their products and answer any questions students may have.

The school will consist of a combination of lectures, demonstrations and chromatograph operation. Lectures will be minimal, approximately one to two hours per day. Emphasis will be on machine demonstration and operation. Both natural gas and natural gas liquid samples will be analyzed. Reference materials needed for class will be provided at the school. Be sure you have extra room in your suitcase to get this material home.

Registration: Enrollment in this school is based on a first-come, first-served basis. To ensure enrollment, please complete and return the attached registration form along with your payment as early as possible. **Early Bird Registration (submitted and paid by or before June 27, 2008) will save \$100.00 US Dollars per registrant!**

Note to Measurement Managers:

If your company does business with commercial laboratories, GPA recommends encouraging them to send their employees to this school. This is an excellent way to ensure that commercial labs with which your company does business are truly familiar with GPA methods and analytical procedures.

GPA's 35TH SCHOOL OF GAS CHROMATOGRAPHY / AUGUST 4 - 8, 2008

NAME: _____
COMPANY: _____
MAILING ADDRESS: _____
CITY, STATE OR PROVINCE,
ZIP OR POSTAL CODE: _____
COUNTRY: _____
PHONE: _____
FAX: _____
